

Xerox® DocuTech® Production Publisher Still the one

The first name in print on demand. The last word in black and white image quality.

Xerox® DocuTech® Production Publisher. When the job calls for high-volume black and white production with uncompromising image quality, mixed stocks, and feeding and finishing versatility, there's still just one name you need to know... DocuTech.

Take our newest version for example. It's driven by a powerful new FreeFlow® Print Server. It RIPs through your toughest jobs with speed and reliability.

Ready for whatever is in your queue

Books or booklets. Manuals and catalogues. Flyers and brochures. Pre-printed colour inserts. Even transactional documents like statements, invoices and Explanations of Benefits (EOBs). DocuTech is up to the task thanks to its ability to handle multiple data streams, multiple stocks and multiple finishing requirements.

Move up the value scale

The fact is, with the FreeFlow Digital Workflow Collection and Xerox partner feeding and finishing solutions, today's DocuTech gets you out of the black and white commodity game and into value-added print-on-demand services that increase margins and make you a more strategic supplier to your customers.

Much more than a print engine.

DocuTech is a critical piece of your total Xerox production business solution.

Multiple data streams

Ensures optimum performance and application flexibility.

- PCL, PPML, VIPP®, Adobe PostScript® Level 3, PDF, HP PCL6, TIFF, RDO, ASCII
- Integrated FreeFlow® Variable Information Suite
- LCDS/Metacode/IPDS: optional

More finishing options

Gain a competitive advantage with such features as:

- In-line finishing including hole-punch, booklet making and more
- Variable stitching
- Inline tape
- Extensive additional feeding and finishing options from our Xerox partners

Upgraded security features

Help you comply with the tighter business security requirements of today's communications environment.

Simple user interface

Jobs are transparent and easier to control from start to finish.

Powerful, reliable print engine

DocuTech's proven reliability assures superior uptime and benchmark productivity up to six million pages per month.

Better image quality

Patented ImageSmooth Technology makes premium image quality simpler to attain than ever:

- Digital darkness controls easily vary the darkness level of output from very light to very dark
- Dozens of individual image quality controls are provided for text, line art and graphics by PDL
- Faithful reproduction of all elements within complex documents

See how today's DocuTech Production Publisher can do more for you.

From marketing materials to collaterals and countless other business-critical documents, DocuTech simplifies creation and production of innovative applications that communicate more effectively and drive more sales and revenue.
