

Best SMB / Workgroup Color Laser for Image Quality

Xerox
Phaser 6280DN

- Top tier output quality, easily good enough for printing one page mailers or handouts, tri-fold brochures, client newsletters, and similar marketing materials
- Text quality is excellent even at small font sizes, making it suitable for high quality desktop publishing applications
- Graphics stand out for fully saturated color, solid fills, smooth gradients, and, above all, the lack of any serious flaws
- Photos approach true photo quality.
- Xerox's network setup program makes installation nearly trivial
- Substantial input capacity, with a 400-sheet total capacity as standard, divided into a 250-sheet drawer and 150-sheet multipurpose tray
- Built-in duplexer is standard
- Maximum input capacity is 950-sheets
